SUMMARY

Motivated Full Stack Developer skilled in React, React Native, Node.js, Express.js, and Sequelize ORM. Experienced in building dashboards, websites, and mobile apps, and implementing real-time features with Socket.io and Firebase. Holds a BSc in Computer Science from Telangana University, committed to delivering high-quality solutions.

EXPERIENCE

Full Stack developer , Spack Solutions Pvt.Ltd , Hyderabad

Dec 2023 - Present

- Developed responsive websites using React, HTML, CSS, and JavaScript, ensuring high performance and cross-browser compatibility.
- Designed and implemented user interfaces with a focus on usability and user experience.
- Built and maintained mobile applications using React Native, leveraging native components and third-party libraries to enhance functionality.
- Conducted thorough testing and debugging to optimize application performance across different devices and platforms.
- Implemented backend solutions using Node.js and Express.js, creating RESTful APIs to support frontend functionality and data management.

MERN Stack Trainee , Edureka Learning Center , Hyderabad

Jun 2023 - Dec 2023

- Completed comprehensive training in MERN stack (MongoDB, Express.js, React, Node.js) technologies.
 - Acquired proficiency in building full-stack applications, focusing on both frontend and backend development.
 - Gained hands-on experience in developing RESTful APIs using Node.js and Express.js for backend functionality.
 - Implemented data storage and retrieval using MongoDB, ensuring scalability and performance.
 - Developed responsive user interfaces using React, HTML, CSS, and JavaScript, adhering to modern design principles and accessibility standards.
 - Participated in workshops and projects to enhance skills in application deployment, version control, and collaborative coding practices.
-

SKILLS

Frontend Development: React, React Native, HTML5, CSS3, JavaScript (ES6+)

Backend Development: Node.js, Express.js

Database: MongoDB, MySQL

API Development: RESTful APIs

PROJECTS

Zect EV Charge Management App and CRM

Jan 2024 - Present

Spack Solutions Pvt Ltd.

- **Technologies Used** : Node.js, Express.js, Sequelize ORM, MySQL, React, Bootstrap, HTML, CSS, React Native.
- Developed and maintained an EV charge management system, including a CRM for administrators and Charge Point Operators (CPOs) and a mobile app for users. The CRM allows admins and CPOs to track charging transactions, monitor charging stations, and generate reports. The mobile app enables users to locate charging stations, start charging sessions, and record their transactions. Implemented robust RESTful APIs using Node.js and Express.js, with Sequelize ORM and MySQL for database management. Built responsive web interfaces with React, Bootstrap, HTML, and CSS, and developed a cross-platform mobile app using React Native. Ensured high code quality through comprehensive testing and delivering a reliable and user-friendly solution.

PetMichi App

Mar 2024 - Jun 2024

Spack Solutions Pvt Ltd.

- **Technologies Used** : React Native, Node.js, Express.js, Socket.io, Firebase Cloud Messaging.
- Developed PetMichi, a service-providing app for pet owners, implementing features such as chatting, contacting sitters, and OTP functionalities. Used Socket.io for real-time one-to-one messaging and Firebase Cloud Messaging for real-time notifications. Enabled users to access pet services, while sitters could earn income through the platform. Ensured smooth communication between users and sitters, and secure authentication with OTP. Delivered a user-friendly and reliable app with real-time capabilities and robust functionalities.

EDUCATION

Bachelor of Science in Computer Science

Jul 2019 - Dec 2022

Telangana University

- Achieved 74.4% aggregate.

Intermediate Education

Jun 2017 - Mar 2019

Telangana Model School and Junior College

- Gained 816 marks out of 1000

ADDITIONAL INFORMATION

Languages: English,Hindi,Telugu

Certifications: Certificate of Excellence in MERN stack training , Edureka Learning Center , Hyderabad
